

Advisement/Registration Procedure

Semester registration and advising periods are listed on the [Registrar's Calendar](#). [Semester class schedules](#) and [registration procedures](#) are posted on the Registrar's Office page of the website.

Your academic department will inform you of their requirements related to advisement, when to register, and required courses/sections.

A Financial Hold will prevent the ability to register for classes. If you have any questions address them to the Bursar.

A late registration fee will be assessed to any student not registered by the end of the formal registration period.
